Communications Policy

30th May 2025

Communications Policy

1. INTRODUCTION

1.1 How does SNEHA use Communications?

SNEHA is a secular, Mumbai-based non-profit organization, registered as a Public Trust, addressing the health needs of women and children in the most vulnerable urban informal settlements. Communications domain in SNEHA leads communication with external stakeholders, besides supporting program teams with strategic inputs and capacity building to enhance their communication and ensure alignment with SNEHA branding. The Communications team is the custodian of the SNEHA brand, including logo and branding guidelines.

Current channels of communication being used include:

a) SNEHA website
b) Social media
c) Newsletters
d) Public relations, including media mentions, press releases
e) Print and online publications
f) Events, e.g. Dissemination, Fundraisers, and other external-facing events
g) Annual report
h) Blogs
i) SNEHA Intranet

Vision: To build, strengthen and sustain SNEHA's reputation as a leading authority on urban health through strategic storytelling, brand visibility, stakeholder engagement and consistent messaging across all platforms.

Goal: To establish SNEHA as the go-to NGO for urban health in India

Role of Central Communications

- To represent/showcase SNEHA's work to external stakeholders
  - Website, Social media channels, Newsletters, Public relations - Media, Speaking engagements, Donor communications

- Owners of SNEHA's branding guidelines
- Positioning SNEHA as knowledge leaders in public health
  - Dissemination events, Resources section on the website, Supporting the SNEHA Knowledge Centre (SKC), Collating and branding of BCC material, Support Research domain to develop policy briefs/short reports
- Integrated Marketing Communications & Support to programmes

2. COMMUNICATIONS PROCESSES

2.1 Internal communications

This includes -

- Ensuring adherence to branding guidelines in all internal communications
- Maintaining on the SNEHA Intranet the templates to be used for all communications (e.g. Word document, PowerPoint presentation, official SNEHA letterhead) including the SNEHA branding guidelines and colour scheme; Maintaining Resource Directory for all communication vendors (filmmakers, animators, photographers) that the Communications Team has used/verified in the past so that the SNEHA team can easily review their work and approach
- Media updates are sent via group email on a monthly basis to the SNEHA PCPD group (i.e. Program Coordinators and upwards)

The Communications team will lead the brand restructuring exercise for SNEHA, as they are the brand custodians. The Communications team works closely with the Fundraising team for any donor-related communications.

2.2 External communications

2.2.1 SNEHA Newsletter	
Frequency Guidelines	Once in 2 months
Person responsible	Manager

Process followed	• The newsletter is disseminated in the first week of the succeeding month, for example, an April newsletter will be disseminated in the first week of May. • The Communications Manager develops the content and will include highlights of the last 2 months from across SNEHA. • Photographs are collated by the Communications Coordinator by connecting with the concerned programme and domain team members (Documentation Co-ordinators wherever available) • Draft content shared with the Associate Director, FR & Communications • After approval, newsletter content and photographs are sent to the graphic designer for designing the newsletter on Zoho • Send test emails for feedback on the designed newsletter • Disseminate the final approved designed newsletter to the list of donors/stakeholders (Newsletter list on Zoho) • The email list on Zoho is updated every month by the fundraising team, to add the new donors/prospective donors/ visitors/ supporters/ volunteers who SNEHA has connected with in the previous month. To be done by the FR Officer.
2.2.2 Annual Report	
Frequency Guidelines	Annual
Person responsible	Manager, Associate Director (AD), CEO
Process followed	• The Annual report is disseminated typically within 20 days of finalization and approval of financial records by statutory auditor. The collation of content from the various SNEHA programme and domain teams is done during April and May. • The theme of the Annual report is developed by the Communications Manager, with inputs from the AD and the CEO. • The content development is done by the Manager in line with the theme identified and the inputs from the programme and domain teams. • In parallel a vendor is identified (as per SNEHA's procurement policy) who will design the annual report based on the content provided. The vendor will share design ideas for the cover page and the inner pages of the report. Feedback is to be taken from the AD and CEO before finalising the annual report template. • Photographs are collated by the Communications Coordinator by

	connecting with the concerned programme and domain team members (Documentation Co-ordinators wherever available) • If appropriate photographs are not available, the Coordinator will appoint an external vendor to take photographs across programme locations over 2-3 days, as per the requirement. • Draft content of the Annual report shared with the AD for inputs and further refinement. • The finalised content is shared with the identified vendor for designing of the Annual report. This process typically takes 2 months, and should allow for at least 3 iterations. • The first iteration is reviewed by the Manager and shared back with the designer for any corrections. The second iteration is reviewed by the AD, and the final iteration by the CEO for their feedback. • After the final approval is given, the design vendor shares the printable files for the annual report. In some cases, an annual report video is also shared by the vendor based on content already provided for the Annual report. • The Admin team identifies the vendor for printing. The files are given to the printer for printing. The number of copies are decided in consultation with the AD and CEO. • Once the Annual report is ready, it is disseminated through email to the entire database (newsletter list). It is also uploaded on the SNEHA website. • Hard copies of the Annual report are kept in SNEHA Central office. At least 10 copies are kept aside not to be distributed, which will be required for future audits by the Income Tax department, FCRA, etc. Ten copies are kept centrally and shared with programme teams upon request, subject to an email request and validation by the communications team.
2.2.3 Social Media Current social media channels include Facebook, Instagram, LinkedIn, Twitter (X) and YouTube	
Frequency Guidelines	Ongoing - for the first four social media channels, posts/tweets are done weekly or at a higher frequency in case of events, campaigns or other time-bound announcements. YouTube updates are done as and when required (creation of new videos by Central Communications or Programme teams)
Person responsible	Coordinator, Manager
Process followed	• There are 4 main 'types' of posts that we usually post/tweet: (a) Program-specific - e.g. campaigns, program activities/events, case

	stories, on-ground events (b) Donor-related social posts, where the donor organisation is 'tagged', e.g. following a site visit, employee engagement activity, etc. (c) Thematic posts - for Nutrition Month, 16 Days of Activism, etc. Every month the Communications team identifies a theme and weekly posts are drafted based on the theme (d) Social Media Campaigns run in collaboration with internal programs or external partners. ● The Coordinator maintains a Social Media Content Calendar to plan the social media posts for weekly/monthly/annual updates. The content calendar is reviewed by the Manager and finalised jointly. ● Before posting on the social media channels there is a detailed Review Process to ensure that only factually correct information from credible sources is posted online. The review process is outlined below - 1. For (a) above, the content is usually shared by the program team (PC/DC/APD) with the Communications team, in which case there is no separate review planned. The DC sends the caption content with the approval of their respective PD and a maximum of 3-4 images or video clips. The Communications team edits the language of the caption to add relevant hashtags and keywords and edits the photos to align with the SNEHA social media template. In the case of a video clip, the program team can send specific instructions on what is to be included in the final post and the communications team will share the edited clip for approval within 2-3 working days. 2. For (b) above, these posts are reviewed by the donor for content, donor logo, placement of logo, photos with employees' pictures, etc. The Fundraising team is involved in the process of getting approval from the donor. In this case, as well, content (photos, case stories etc.) is sent by the program team. Once approved by the donor, the Communications team will post on social media. 3. For (c) Thematic posts, we will have the following review process - ● Based on the next month's theme, post copy/content will be drafted by the Communications team (typically 6-8 posts). The content is based on authentic sources of information (e.g. NFHS survey, UN reports/articles, WHO reports, SNEHA data, etc.) ● The draft post content will be shared with the Research Director for their review.

	• Content will be reviewed for factual correctness, numbers/indicators shared, messaging that SNEHA wants to convey, possibilities of misinterpretation, etc. Changes/inputs if any will be incorporated by the Communications team • Once the Research Director approves the content, the Communications team designs the post (with the help of the Consultant designer) and will 'post' on social media. (While a monthly review/approval process is planned, there could be reviews/posts that need to be done mid-period based on the context or requirement). 4. For (d) Social Media Campaign there will be the following steps: • A meeting with all involved parties • A plan is created and approved by APDs - The plan includes a Posting schedule, tagging/collaboration permissions, a basic content outline, and the aim of the campaign. • Content collation is done by DCs (supported by the Communications team if videography or photography is required.) • The Communications team designs the posts, reels, and various content and sends them to the Program Team for review. • The Communications team schedules or posts the content according to the Plan after final approvals. • If an external team is involved, the same steps are followed with the external parties' Communications team instead of DCs and APDs. • Social media analytics
2.2.4 Website	
Frequency Guidelines	Ongoing
Person responsible	Coordinator, Manager
Process followed	**1. Monthly Website Updates (Communications Coordinator)** • **Task:** Ensure continuous updates for dynamic website pages

	(e.g., blogs, media, homepage, people page, resources, contact us). ● **Process:** 1. Identify required updates (new blog posts, media additions, team changes, etc.). 2. Monthly internal review of the website 3. Coordinate with relevant teams (content writers, designers, developers) for necessary assets. 4. Respective domains to send update info for website regularly. (Admin Team: New office Addresses and phone number; M&E Team: research papers, Fundraising Team: Donors update on program page and Donor page updates.) **SEO Optimization:** Manager, with the support of the Coordinator ● **Task:** Improve search engine rankings through keyword planning, content review, and technical enhancements. ● **Process:** ○ **Communications Manager:** ■ Lead **weekly SEO meetings** with the agency. ■ Decide on key topics, keywords, and content strategies. ■ Oversee and approve major SEO decisions. ○ **Communications Coordinator:** ■ Assist in research and implementation of SEO strategies. ■ Work with the agency on **off-page SEO tasks** (content review, backlinks, etc.). ■ Track and document SEO recommendations and progress. **Website Analytics (Communications Coordinator)** ● **Task:** Collect and report monthly website analytics data. ● **Process:** 1. Use tools like **Google Analytics or Google Search Console** to collect data. 2. Analyze key metrics such as traffic, engagement and SEO performance.

	3. Prepare a monthly report, share findings with the Communications Manager, and during the FR & Communications team calls (once a month). 4. Suggest optimizations based on analytics insights. **Website AMC (Annual Maintenance Contract)** ● Ensure the website remains technically sound and up-to-date with vendor support. ● In the AMC process, the Coordinator will raise the voucher, and the Manager will review and approve it.
2.2.5 Public Relations Open media universe - Print, digital and broadcast (Newspapers, magazines, digital news sites, blogs, television and radio)	
Frequency Guidelines	Ongoing
Person responsible	Manager, with the support of the Coordinator
Process followed	1. **PR Planning**: The **Communications Manager**, with inputs from the **Associate Director**, will develop the PR plan to align with the NGO's strategic goals. 2. **Drafting Press Releases and Pitches**: The **Communications Manager** drafts the press releases and pitches. Once completed, they are sent to the **Associate Director** for approval. 3. **Program-Specific Press Releases**: For releases related to specific programs, **Program Coordinators** or **APDs** will share content, which is then approved by the **Program Director** before being finalised. 4. **Media Outreach and Follow-Up**: After sending the pitch or press release, the **Communications Manager** or **Communications Coordinator** will follow up with journalists via phone or email to ensure the story is being considered. 5. **Responding to Media Inquiries**: - **Media Queries**: Journalists may reach out for additional

	information, quotes or interviews. The **Communications Manager** will respond promptly with facts, talking points, or spokespeople who can provide insights into the NGO's work. - **Press Kits**: For events or major stories, the **Communications Team** will prepare and distribute media kits. 6. **Handling Media Interviews**: The **Communications Manager** coordinates the scheduling of interviews, prepares the interviewee with potential questions, and ensures that the interview proceeds smoothly. 7. **Monitoring Media Coverage**: - **Tracking**: The **Communications Coordinator** is responsible for tracking the media coverage resulting from PR efforts. This may include clipping articles, monitoring broadcast coverage, or reviewing online mentions. - **Media Reports**: The **Communications Coordinator** compiles media reports that assess the reach, tone and impact of the coverage. Inbound Media Queries: **1. Initial Receipt of Media Query** ● **Method**: Queries come via email, phone, or social media. ● **Action**: Acknowledge receipt to the journalist, confirming it's being processed by the Communications Manager. **2. Determine the Urgency** ● **Assess**: Determine if the request is time-sensitive (e.g., for breaking news). ● **Follow-Up**: If no deadline is mentioned, Communications Manager will ask for one. **3. Identify the Key Contact or Spokesperson** ● **Review**: Communications Manager will identify the right person to respond internally. ● **Approval**: Ensure the response aligns with the company's messaging and guidelines, and higher-level approval is obtained if needed.

	4. Research the Media Outlet ● **Check**: Understand the journalist and the outlet. ● **Review**: Look at past work to match the tone of the response. **5. Draft the Response** ● **Personalize**: Communications manager will address the journalist by name and reference the query. ● **Provide Value**: Share clear, concise, and relevant information. ● **Materials**: If needed, add supporting materials like quotes, links, or images. **6. Offer Access to Spokespersons or Additional Information** ● **Interview**: Offer to connect with an expert if needed. ● **Availability**: Mention your availability for further questions. **7. Review and Approval** ● **Internal Review**: If it's a high-stakes issue, ensure leadership reviews the response. **8. Send the Response** ● **Timely**: Aim to reply on time, or provide an update if a full response will take longer. ● **Be Concise**: Journalists work on tight deadlines, so keep it short and clear. **9. Follow-Up** ● **Check-In**: The **Communications Manager** will follow up to ensure the journalist received the response and ask if they need more info. ● **Further Resources**: Offer additional media resources if needed. **10. Monitor Coverage** ● **Track**: The **Communications Coordinator** to monitor media

	outlets for coverage of your response. ● **Corrections**: If necessary, work with the journalist to correct any inaccuracies. **Cross-promotion Promotion** **Communications Coordinator** ensures that all media coverage is : **(a)** shared across relevant **SNEHA social media channels (Facebook, Instagram, X and LinkedIn)** **(b)** updated in **the Media section** on the SNEHA website
	Process for Articles, Write-ups **Write-Up Submission** ● The **Subject Matter Expert (SME)** prepares and submits the write-up. **Review and Edit** ● The **Communications Manager** reviews the write-up, ensuring it aligns with external communications policies and suggests necessary edits. **Approval and Finalisation** ● Once reviewed, the write-up is approved by the **Communications Manager**. The **Communications Manager**, Associate Director – Fundraising and Communications, and **Coordinator** are kept in the loop for visibility and coordination. **Submission to Publishing Outlet** ● The **approved write-up** is shared with the relevant publishing outlet. ● The PDF copy of all published articles (online and print) to be downloaded on a monthly basis and saved in the communications drive – labelled 'Published Articles - SNEHA'.

2.2.6 Awards / Accreditations	
Frequency Guidelines	As and when opportunity arises
Person responsible	Manager, with the support of the Coordinator
Process followed	Scouting prestigious speaker forums and awards, especially requests for applications that carry a monetary award and researching to see the best fit. Usually, we don't go for any paid awards, unless the amount is nominal and we believe it will give us good branding. Identifying which programme can be nominated for which category and awards; ensuring support to the programmes for filling up the forms and timely submission of the same. **Brainstorming and Initial Decision (Kickoff)** ● **Participants**: Communication Manager, Fundraising Manager, M&E APD/PD and the Programme APDs and PDs ● **Action**: ○ The **Communications Team** initiates the process by identifying potential external awards relevant to the NGO's mission and current programs. ○ A **brainstorming session** is held involving the **PD/APD** (for program relevance) and **M&E PD/APD** (for data and impact verification) to discuss the award's eligibility, criteria and program alignment and Fundraising Manager (if required) ○ The team decides which programme to apply for **Information Collection** ● **Participants**: Program Teams, M&E APD ● **Action**: ○ The **Communication Manager** gathers all the necessary information related to the specific program, including: ■ Program goals, activities and outcomes. ■ Success stories, impact data and beneficiary feedback. ○ The **M&E APD** ensures that the data is accurate, reliable and properly documented.

	Drafting the Application ● **Participants**: Communications Team, APD, M&E APD ● **Action**: ○ The **Communication Manager** drafts the award application, incorporating information from the program and M&E reports. Communication Coordinator helps in collecting relevant photographs and case stories by coordinating with programme Documentation Coordinators. ○ **APD** provides insights into the program's impact and outcomes, and the **M&E APD** supports with data and evaluation metrics. ○ The application is drafted in line with the award criteria and includes compelling narratives and measurable impact. **Review and Refinement** ● **Participants**: Communications Team, programme PD/APD, M&E APD and PD, Senior Leadership (if needed) ● **Action**: ○ The draft application is reviewed by the **APD**, **M&E APD**, and other relevant stakeholders (e.g., PD, AD FR & Communications) to ensure all information is accurate and aligned with the award's criteria. ○ Feedback is provided and necessary revisions are made to improve the application. **Final Approval** ● **Participants**: Communications Manager, APD / PD / Senior Leadership ● **Action**: ○ The final draft is reviewed and approved by the **Communications Manager** and **APD**. ○ The programme director will sign off if the award is programme specific and senior management will sign off it is organisational level award (eg. Hilton) **Submission**

	● **Participants**: Communications Team ● **Action**: ○ The **Communications Manager** submits the finalised award application within the given deadline, ensuring that all required documents are included (e.g., supporting materials, testimonials, impact reports). **Follow-up and Monitoring** ● **Participants**: Communications Team ● **Action**: ○ After submission, the **Communications Manager / Coordinator** follows up with the award organizers to confirm receipt and check on the progress of the evaluation process. ○ Actions to be taken upon winning an award or accreditation: Update SNEHA collaterals: ■ 1. Overview deck (PPT) ■ 2. Overview document (Two-pager PDF) ■ 3. Website ■ 4. SNEHA Induction deck ■ Post on social media handles ■ Include in bi-monthly donor newsletter
2.2.7 Blogs	
Frequency Guidelines	Targeting 2 per month
Person responsible	Communications Coordinator
Process followed	**Plan for the year (Planned and unplanned blog submission): Planned Annual Blog & Implementation Process** 1. **Planning:** ○ Develop an annual blog calendar outlining themes, topics and timelines. ○ Schedule two blog posts per month. 2. **Review & Approval:**

	○ Submit the calendar for review and approval (e.g., by APD - Communications). 3. **Content Creation:** ○ Assign topics to writers/content creators as per the schedule. ○ Drafts to be submitted at least two weeks before the publish date. 4. **Editing & Final Approval:** ○ Review and edit drafts. ○ Final approval from the Communications Manager. 5. **Publishing:** ○ Publish two blogs each month (online and/or print as applicable). ○ Promote through relevant communication channels (e.g., social media, newsletters). 6. **Archiving & Tracking:** ○ Save published blogs in PDF format, organized year-wise. Maintain a log for tracking performance and engagement. **Unplanned Blog Document Submission Process** ● The program or domain **Coordinator** with the **approval of APD** of their program or domain sends the document in a **Word file** format, ensuring to include at least **one picture separately in the email.** **Review and Edits** ● The **Communications Coordinator** reviews the document, adds photographs if needed, and suggests any necessary edits. **Final Approval and Posting** ● After review, the document is shared with the **Design Consultant**, who posts the final text and image on the website.
2.2.9 Conferences / Speaking Opportunities	
Frequency Guidelines	Two-Three times a year

Person responsible	Communications Manager
Process followed	1. **Assessment & Selection** ○ Communications Manager, Communications Coordinator evaluates the relevance of the conference/speaking opportunity to the NGO's mission, audience and objectives. ○ A decision is made on whether to apply or accept the invitation based on alignment with organisational goals. ○ The **Communications Manager** coordinates internally to select the most appropriate speaker (e.g., PD, APD, CEO Programme Expert). 2. **Application or Acceptance** ○ The **Communications Manager** submits an application for speaking or accepts the invitation, providing required details (e.g., speaker profile, presentation topics). 3. **Participation** ○ The selected speaker participates in the conference or speaking engagement. ○ **Communications Coordinator** handles logistics, coordination and promotion around the event. 4. **Post-Event Engagement** ○ The **Communications Coordinator follows** up post-event to gather feedback, share event highlights and update stakeholders. ○ The team may also share key takeaways through newsletters, social media, or internal channels (if applicable).
2.2.10 Podcasts	
Frequency Guidelines	Targeting external once a quarter and internal twice a quarter
Person responsible	Communications Coordinator
Process followed	1. **Planning & Topic Selection** ○ The **Communications Coordinator** works with relevant internal teams to identify topics that align with the NGO's mission, values and current initiatives.

	○ A list of potential speakers (internal experts, senior staff, or program leads) is selected. 2. **Guest Coordination & Scheduling** ○ The **Communications Coordinator** reaches out to selected internal speakers to confirm their participation and schedules recording sessions. ○ Ensure speakers are briefed on the podcast's theme, format, and expected outcomes. 3. **Preparation & Script Drafting** ○ The **Communications Coordinator** coordinates with the speaker(s) to prepare the content or a loose script for the podcast, highlighting key talking points. ○ Pre-recording rehearsals or discussions may be arranged if necessary. 4. **Recording & Editing** ○ The **Communications Coordinator** manages the technical aspects, including recording the podcast, editing for clarity, and ensuring audio quality. ○ Any necessary edits to improve flow, remove errors, or ensure consistency with messaging are made. 5. **Publishing & Promotion** ○ Once the podcast is finalized & secured approval of the person who was recorded in the podcast, or their immediate supervisor in case the person is PC level or below, the **Communications Coordinator** uploads it to the internal platform or website. ○ Promote the podcast internally via email, intranet, or other communication channels to engage staff and stakeholders and externally via social media channels 6. **Feedback & Evaluation** ○ After publishing, the **Communications Coordinator** collects feedback from listeners to evaluate the podcast's effectiveness and identify areas for improvement.
2.2.11 Photography / Videography	
Type	1. Central Events (For Eg. Dissemination, Fundraiser, TMM) 2. Programme Events (For Eg. Partners Meet, Yuvanaad) (Internal management & External hiring)

Person responsible	Communications Coordinator and Documentation Coordinator
Process followed	**Process for Communications Coordinator or DC (Internal Management)** **1. Planning and Coordination:** ● **Define the event coverage needs:** Identify key moments to capture (e.g., speeches, attendees, key activities). ● **Create a short list:** Outline specific photos or videos required for social media, newsletters and the annual report. ● **Coordinate with staff or volunteers:** Assign a photographer/videographer within the team or a volunteer to take photos and videos. ● **Taking consent from persons being photographed in advance of event / shoot** ● Signing the MOU between Photographer and SNEHA **2. During the Event:** ● **Capture key moments:** Ensure coverage of key event highlights (speakers, audience engagement, key moments, etc.). ● **Social media updates:** Share real-time content on social media platforms (e.g., Instagram stories, FB / Xr updates) to engage the audience. ● **Video clips for social media:** Record short, shareable video clips for platforms like Instagram & Facebook. **3. Post-Event:** ● **Organize and edit media:** Review all photos and videos taken during the event, select the best content and edit for quality. ● **Share on social media:** Post curated photos and video clips on social media channels with engaging captions and hashtags. ● **Create content for the newsletter:** Select high-quality images and videos to include in the event recap for the next newsletter. ● **Prepare content for the annual report:** Choose impactful visuals that represent the event's success and integrate them into the annual report. ● **Storage of photos for easy accessibility:** To be stored in the media drive by DC for their programme and maintained by Communications Coordinator. If professional hired by

	programme, storage to be managed by DC or relevant programme rep. For Central events this will be handled by communications coordinator. **Process for Hiring a Professional Photographer/Videographer for the Event** **1. Planning and Coordination:** ● **Determine requirements:** Define the specific needs (e.g., number of photos/videos, key moments to capture, type of event). ● **Hire a professional:** Research and hire a professional photographer/videographer with experience in NGO events. ● **Share event details with the professional:** Provide the event schedule, key moments to cover, and specific content required for social media, newsletters, and annual reports. **2. Pre-Event:** ● **Create a short list:** Work with the professional to create a detailed list of desired shots (e.g., candid moments, speakers, group photos). ● **Provide branding guidelines:** Ensure the photographer/videographer understands the branding and visual tone for consistency across platforms. ● **Signing agreement with SNEHA** **3. During the Event:** ● **Capture high-quality content:** The professional will make every effort to take high-quality photos and videos of key moments, attendees and activities. ● **Social media-friendly content:** Ensure the photographer/videographer is aware of capturing content suitable for social media (e.g., vertical videos for Instagram Stories, candid shots for Facebook/Instagram). ● **Real-time updates:** They may assist with capturing content for social media platforms, which will be shared real-time by the Communications coordinator after acquiring verbal consent from the event attendees being captured.

	4. Post-Event: ● **Review and select content:** The professional will provide raw or edited photos and videos. Review them to select the best content for different uses (social media, newsletters, annual report). ● **Edit photos and videos:** If needed, the professional will provide edited versions of photos and videos for high-quality content. ● **Create content for social media:** The professional may provide final edits, or you can create posts from the delivered content, including captions, hashtags, and scheduling. ● **Prepare for newsletter and annual report:** Choose the most impactful visuals for inclusion in the newsletter and annual report. Ensure proper formatting and alignment with overall branding. **Programme Team Organizing Event** **Process for Photography/Videography** **1. Event Planning and Budgeting:** ● **Allocate budget for photography and videography:** The programme team includes costs for a professional photographer/videographer in the event budget. Ensure this allocation covers both the photographer/videographer's fees and any post-production costs (editing, etc.). ● **Determine content needs:** Programme team should define the type of media required (photos, videos) and specific moments to capture (e.g., key speakers, audience reactions, event highlights, etc.). ● Programme team can refer **Intranet for vendors: Photography Vendor Resources** **2. Coordination with Communications Team (if available):** ● **Communications team's availability check:** Determine if the communications team will be available to assist with documentation (social media, newsletter, annual report). If not, the programme team will proceed independently. ● **Provide guidance:** If the communications team is unavailable, the programme team's designated documentation coordinator (or any appointed team member) should be responsible for

	overseeing the media documentation process and liaising with the photographer/videographer. **3. Hiring Professional Photographer/Videographer:** ● **Identify and hire a professional:** Programme team selects a professional photographer/videographer from the communications master list of vendors from the intranet, with experience in NGO events and who aligns with the event's goals. This may include creating a short list and agreeing on deliverables (raw footage, edited media, etc.). ● **Provide event details to the photographer/videographer:** Share the event schedule, key moments to capture, and the specific use of photos and videos for central communications. **4. Event Documentation:** ● **Programme team documentation coordinator or appointed team member's role:** ○ If the communications team is unavailable, this person will take on the role of overseeing media coverage at the event. ○ They will ensure the photographer/videographer captures the necessary moments and adheres to the shot list. ○ They may also assist in sharing content on social media in real-time, depending on the event's nature. ● **Capture key moments:** The professional photographer/videographer captures the planned event moments. This should include candid shots, group photos, videos for social media, and any other event highlights. **Consent Management (Critical):** ● **Obtain consent:** It is the **programme team's sole responsibility** to **gather consent from all participants** before capturing any photographs or videos. This includes: ○ **Participants** ○ **Clients** (Survivors of violence) ○ **Community Volunteers** ○ **Public Systems Officials:** Any government or public sector officials attending the event. ● **Consent process:** Ensure consent forms are signed by all

	participants (or their guardians, in the case of minors) prior to the event. (consent should be documented)
	● **Respect privacy:** Any participants who do not wish to have their photos or videos taken should be respected, and alternative arrangements should be made.
	
	6. Post-Event Media Handling:
	
	● **Review media content:** After the event, the programme team reviews the media captured by the professional photographer/videographer and upload / update the common 'media folder' with proper labeling.
	● **Select media for social media, newsletter and annual report:** The programme team's documentation coordinator (or appointed team member) will select relevant images and video clips that can be used for the event recap across various channels.
	  ○ **For Social Media:** Curate a set of high-quality images and videos to be shared in posts on social media platforms (Instagram, Twitter, Facebook, etc.).
	  ○ **For Newsletter:** Choose event photos and videos that align with the story being told in the newsletter.
	  ○ **For Annual Report:** Select the most impactful visuals to represent the event's success and impact in the annual report.
	
	7. Post-Event Collaboration with Communications Team:
	
	● **Share approved media and post copy:** After selecting the media, the programme team will share the final photos/videos with the communications team, along with the post copy (approved by the APD or PD) for social media content.
	● **Content Creation and Distribution:** The communications team will assist with finalizing and scheduling the social media posts and ensure consistency across platforms.
	
	8. Content Creation and Distribution:
	
	For Social Media: The appointed team member will create posts for social media, including writing captions, selecting appropriate hashtags, and scheduling the posts for publication. The Communications Manager is responsible for checking the donor MOU and verify the social media posts align with its terms.

	• **For Newsletter and Annual Report:** The selected images/videos will be formatted and included in the newsletter content and the annual report design. **9. Final Review and Feedback:** • **Post-event review:** Once all content is shared and used for the relevant channels, the programme team may review the overall media coverage to assess the success of the event's communication. • **Feedback loop:** If there are any additional media assets needed (e.g., edits, further shots), the programme team can follow up with the photographer/videographer. **Photography/Videography** • The assigned photographer/videographer (internal or external) captures photos and videos during the event. **Uploading to Media Drive** • The **Communications Coordinator** uploads the final photos and videos to **SNEHA's Media Drive**, organizing them in the relevant program's folder. **Sharing with Relevant Stakeholders** • The **Media Drive** folder is shared with the **Document Coordinator (DC)**, **APD**, and **Program Director (PD)** for access and further use.
2.2.12 Programme Collaterals for Events, IEC/BCC material, Process manuals	
Frequency Guidelines	As required
Person responsible	Communications Coordinator
Process followed	The programme team creates the material (either via paid contractor or internally) and shares it with the Communications team for a content and branding check; The communications coordinator reviews and approves or suggests edits as per the SNEHA Branding Guidelines.

2.2.11 Branding Collaborations	
Frequency Guidelines	As and when required
Person responsible	Manager, with the support of the Coordinator
Process followed	**1. Identifying the Opportunity** ● **Align goals and values:** Ensure both organisations share common objectives and target audiences. ● **Define collaboration objectives:** Determine the purpose of the collaboration (awareness, campaigns, joint events, etc.). **2. Agreement and Planning** ● **Initial discussions:** Meet to define roles, responsibilities and expectations. ● **MoU:** Formalize the agreement by defining terms related to branding, usage rights, and deliverables, incorporating input from external legal counsel for the branding collaboration MOUs **3. Co-Branded Strategy** ● **Joint messaging:** Develop unified, complementary messaging. ● **Visual identity:** Create co-branded materials using both logos and brand elements. ● **Content creation:** Develop collateral like brochures, social media posts and emails. **4. Content Approval** ● **Approval process:** Establish a workflow for reviewing and approving all content. ● **Consistency:** Ensure both brands follow their respective guidelines for cohesion. **5. Social Media & Online Presence** ● **Joint campaigns:** Plan cross-promotional social media

	campaigns and co-branded posts. **6. Event Execution** ● **Co-branded materials:** Design event signage, programs and promotional materials. ● **Shared representation:** Ensure both NGOs have a visible presence at events. **7. Monitoring & Reporting** ● **Track success:** Measure campaign performance and engagement. ● **Evaluate impact:** Review results post-collaboration to determine success and learnings. **8. Long-Term Follow-Up** ● **Maintain communication:** Keep in touch for future opportunities. ● **Cross-promotion:** Continue leveraging each other's networks.
2.2.12 Branding Strategy	
Frequency Guidelines	As and when required (likely to be every 5 years)
Person responsible	Manager, Associate Director, CEO
Process followed	1. Formed a cross-functional team (CEO, APDs from programme and domains, PC, M&E consultant, Communications Manager, Domain Head) 2. Creative Agency - who will support who will conduct 3. Creative Agency - conducts workshops with PDs, APDs, PCs 4. Internally - Iterative Process 5. Creative Agency - comes back with new templates - branding will be updated across all (Website, letterheads, 6. Internal - New Branding Induction
2.2.13 Film Production	

Frequency Guidelines	As required by Programme team or domain
Person responsible	Communications Manager supported by coordinator
Process followed	All documents mentioned here can be found on the SNEHA intranet under communications resources in Film process documents. 1. The program team looks through the Film Production Manual to understand the process 2. Fill out the creative brief and share with the communications team 3. Once approved internally reach out to vendors listed in the vendors for film sheet and make a comparative sheet of 3 chosen vendors. 4. After finalising the vendor, use the MOU provided or create a new one and both parties sign and share with finance team.
Supporting documents (can be found on the SNEHA intranet)	1. Draft MOU: https://docs.google.com/document/d/1Cz35OaS46k1LMh9nqBCdSsyG5SX8Z-28/edit?usp=sharing&ouid=107198462888989316156&rtpof=true&sd=true 2. 2.5 Fundraising-related communication requirements

(should include Annual fundraiser support from the Communications team; online/offline campaigns - support for collaterals, e.g. mailers, social media posts, etc.; donor posts; etc.)

a) Annual Fundraiser - The Souvenir content is to be finalized and printed before the Fundraiser so that it can be distributed at the Fundraiser, along with the Annual Report.
b) Mumbai Marathon / Other events -
c) Donor posts
d) Mailers
e) Collaterals

2.6 Integrated Marketing Communications & Events

Integrated Marketing Communications (IMC)
Special Days
Dissemination

3. DOMAIN MANAGEMENT

3.1 Annual Communications Budget:

The communications budget is prepared in advance of the financial year for approval by the Trustee board, as part of the organization budget. The budget for the Communications team is prepared by the Communications Manager in consultation with the Associate Director - Fundraising & Communications, Finance team and approved by the CEO. If there are new expenses proposed during the course of the year, the annual budget has to be updated and approved by the CEO, and the revised budget has to be shared with the Director, Finance.

3.2 Reporting and Review:

- Monthly reports present the work done by the Communications team throughout the month. Needs to be sent every month to the PCPD group email ID.

- Monthly presentations are made to CEO about the work done in the month. This includes social media statistics, website google analytics and other measurable data
- Half-yearly and Annual KRA Review presentations are done in October/November and May respectively in the presence of all of SNEHA

3.3 Working with Documentation Coordinators:

- Communications training session with all DCs, as and when they join, to keep them up to date on all the communication and documentation policies
- Skill training (Photography, videography and other Communications-related skills) as required for teams organised by the Documentation coordinator and conducted by the Communications Coordinator
- Monthly meetings with all DC to gather inputs on the upcoming month for PR activities and Social Media Calendar

Rules and regulations pertaining to Social Media Platforms

The Indian Ministry of Information and Broadcasting (MIB), along with the Digital Personal Data Protection Bill (2023) and other regulations, lays out guidelines that govern social media platforms, online content, and digital spaces in India. These guidelines are designed to regulate online behavior, protect personal data, and ensure accountability for social media platforms.

Below are the key components under Indian social media guidelines and the Digital Protection Act, 2023 (often referred to as the **Personal Data Protection Bill**):

1. **The Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021.** These rules were framed under the Information Technology Act, 2000 to regulate digital and social media platforms in India.
   Key provisions include:
   a. Due Diligence by Intermediaries: Social media platforms like Facebook, Twitter, YouTube, etc., are required to exercise due diligence and ensure that content hosted on their platform does not violate Indian laws, including issues like hate speech, fake news, or content that could harm national security.
   b. Grievance Redressal Mechanism: Social media platforms must have a grievance redressal mechanism to address user complaints within a specified period (usually 15 days). A Chief Compliance Officer and a **Nodal Contact Person** should be appointed to handle user complaints.
   c. Content Regulation: Platforms must remove illegal content within 36 hours of receiving a complaint. This includes content related to terrorism, child sexual abuse material (CSAM), or any content that violates Indian law.
   d. Additional Compliance for Significant Social Media Intermediaries (SSMIs): Social media platforms with a significant number of users (over 5 million) are required to appoint a **Grievance Officer**, and also introduce measures for **traceability** of messages. In cases of illegal or harmful content, these platforms are expected to help authorities trace the origin of the content.
   e. Self-regulation by Digital News Media: Digital media platforms and news publishers are required to have a **code of ethics** for content that they post. They should avoid content that promotes violence, hatred, or misinformation.
   f. Protection of Women and Children: Provisions are also in place to protect women and children from harmful content, including any form of harassment or exploitation.
2. **Digital Personal Data Protection Bill, 2023 (also referred to as the Data Protection Act)**
   This is the most recent data protection bill in India, designed to address privacy concerns and regulate how personal data is handled in the digital space. It is in line with global standards like the GDPR (General Data Protection Regulation) in the EU.
   Key provisions of the Data Protection Act, 2023 include:

a. Consent and Data Minimization: Personal data can only be processed if the individual has given explicit consent. The law advocates for data minimization, meaning only the data necessary for a specific purpose should be collected.
b. Rights of Data Subjects: Individuals (data subjects) have the right to:
   - Access their personal data.
   - Correct inaccurate or outdated data.
   - Erase or restrict processing of their personal data (the "right to be forgotten").
   - Data portability to transfer their personal data across platforms.
c. Data Fiduciary and Processor Responsibilities: Organizations that process personal data are considered "data fiduciaries" and are responsible for ensuring the data is secure and processed according to the law. Data processors, on the other hand, are third parties that handle personal data on behalf of the fiduciary.
d. Data Localization: The law mandates that certain types of sensitive personal data must be stored and processed within India.
e. Regulatory Authority: The Data Protection Authority of India (DPAI) will oversee and regulate compliance with the data protection framework. It will also handle user grievances regarding data protection.
f. Penalty for Violations: If personal data is misused, heavy fines can be imposed. The penalty for non-compliance can be up to ₹500 crore (approximately $60 million) depending on the severity of the violation.

3. **Content Moderation and Online Conduct**
   The Indian government emphasizes the need for platforms to moderate content effectively. The provisions include:
   a. Content that violates national security or promotes hate speech, terrorism, or communal violence must be removed immediately.
   b. Disinformation and fake news are to be addressed swiftly. This includes misinformation related to public health, elections, and other matters of public concern.
   c. Children's privacy: Specific provisions related to protecting minors, including prohibiting the collection of data from children without parental consent.
4. **Compliance and Enforcement**
   The Ministry of Information and Broadcasting (MIB) monitors the enforcement of these rules. Non-compliant platforms or intermediaries can be **blacklisted** or even **banned** in India. In some cases, the Ministry of Electronics and Information Technology (MeitY) may take direct action.
5. **Safe Harbor Provisions for Platforms**
   Under the IT Rules, social media intermediaries (such as Facebook, Instagram, YouTube, etc.) are granted **safe harbor** protections, which means they are not held responsible for user-generated content, as long as they follow the due diligence requirements set by the law. However, these protections are limited when platforms fail to comply with these regulations.

6. **The Future of Content Regulation**
   The government has also proposed changes in the way social media platforms and OTT (over-the-top) media services are regulated, including:
   - Fact-checking mechanisms for news content.
   - Platforms being held liable for certain types of illegal content, such as those related to national security or child pornography.

In summary, India's social media and digital content regulations, under the Ministry of Information and Broadcasting and the **Digital Personal Data Protection Bill (2023)**, aim to:

1. Regulate the behavior of online platforms and users.
2. Protect individual privacy rights and personal data.
3. Hold platforms accountable for harmful or illegal content.
4. Ensure user grievances are addressed efficiently.
