Information Management Policy

1. About the Information Technology (IT) Policy

SNEHA issues all full-time employees and some consultants on a case-by-case basis with IT assets (phones/laptops/desktops) depending on designation and budget. The Information Technology (IT) Policy of SNEHA sets forth the central policies, regulations, and guidelines for proper utilization and effective maintenance of these IT resources. This policy governs responsible use that will ensure the security of all data, network systems and physical assets.

The IT Policy applies to SNEHA employees, consultants, volunteers, interns and all others using SNEHA IT resources.

1.1 Purchase

1. For purchase of any new IT assets, services or software for official SNEHA purposes, please follow the guidelines in the SNEHA IT Purchase Policy.
2. All approved equipment, services or software will be purchased through the Administration Department.
3. The IT Department will assist the Administration Department by offering recommendations of IT assets according to budget and availability.
4. Further details on asset purchase can be found in the SNEHA IT Purchase Policy.

1.2 Compliance

1. While using any IT asset provided by SNEHA, all employees, contractors, volunteers and interns will comply with the procedures and guidelines of the IT Policy.
2. Any misuse of SNEHA IT assets must be reported to IT Department immediately.
3. Disciplinary action may be taken against anyone misusing SNEHA IT assets.

1.3 IT Help Desk

1. SNEHA uses an online Help Desk ticket system to ensure timely solutions to IT issues.
2. It is compulsory for all employees/consultants to use the online Help Desk.
3. All employees/consultants must log any IT related issues through the following link: (https://desk.zoho.com/support/snehamumbai)
4. Employees/consultants should provide as many details of the IT issue in the ticket as possible. This ensures IT staff have enough information to quickly resolve any problems.
5. The IT Department will respond to tickets raised by employees/consultants within one business day.
6. Where IT staff are working at the same site as the ticket raised, they will resolve the issue on the same day (unless there is a hardware failure).
7. Where IT staff are not working at the same site as the ticket raised, they will call the employee/consultant and attempt to rectify the issue over the phone, or schedule a time to fix the asset.
8. If there is no response from the IT staff, the employee/consultant should call the IM officer directly for a status update. If the IM officer is not available, the employee/consultant should contact their respective supervisor.
9. Tickets raised during non-working hours will be addressed in the next working day.

2. Equipment Usage Policy

2.1 Objective

The Equipment Usage Policy outlines for employees/consultants the most effective methods for IT asset usage, management and maintenance.

2.2 Asset Tagging

1) The IT Department is responsible for entering all new IT asset details in the Asset Register List.
2) All IT assets owned by SNEHA must be tagged with a physical identification number by printing a yellow sticker and placing it on the asset.
3) The asset number sequence is as follows:
   SN/Department/Location/Asset Type-Unique Identification Number
   Department
   Date of Purchase
4) The IT Department will conduct an audit of the Asset Register List at the end of each financial year.
5) It is the responsibility of the user to inform the IT Department if the identification sticker is lost or becomes damaged.

2.3 Equipment Allocation & De-Allocation

1) Allocation of assets:

a) SNEHA employees/consultants will receive their IT assets (laptops, phone or desktop) at the start of their employment contract (contingent on designation and budget).
b) It is the responsibility of each employee/consultant to ensure the equipment they are receiving is fully operational *before* accepting the item.
c) The IT Department will ensure basic software/programs are installed on new IT assets (PDF reader, WinZip (free version), Tableau reader, Backup tool, Anydesk, MS office (if purchased), Antivirus (if purchased) and Intranet (page setup)).
d) Any requests for additional software should be forwarded to the IT Department with supervisor copied.
e) Asset Handover Letters will be prepared for each asset, with signature of both user and IT department per before asset handover (see Appendix 1). *The IT Department will file Handover Letters securely (hard copy on the server, hard copy in the cupboard).*

2) De-allocation of assets:

a) It is the responsibility of each SNEHA employee/consultant to return their IT assets to the IT Department at the Santacruz Office. *The IT Department is not responsible for any asset not returned to the IT Department.*
b) The IT Department is responsible for recording any damage to the returned IT assets.
c) It is the responsibility of all employees/consultants to remove their own data from the IT asset.
d) Any official SNEHA data must be shared by employees/consultants with their respective supervisors prior to handing over the IT asset.

3) Borrowing assets:

a) SNEHA employees/consultants may borrow additional IT assets as per requirement (i.e. external events/conferences).
b) SNEHA employees/consultants take full responsibility for all assets borrowed from the IT Department. Prior to accepting the IT asset, the employee/consultant is responsible for checking the asset is in working condition.

c) Equipment sign-out privileges may be revoked at any time without warning due to careless handling of equipment, or repeated late returns. For example: unattended equipment is considered careless handling.

d) Under no circumstances should any of the computers (desktops), projectors, printers or scanners be removed from the assigned SNEHA offices without official approval from the program heads or IT department.

2.4 Equipment Usage

1) All SNEHA employees/consultants are responsible for returning their assigned IT assets in the same condition they were received in.
2) Any fault or issue with equipment should be reported to the IT Help Desk immediately.
3) In case of physical damage, SNEHA employees/consultants may be liable for up to 50% of the cost of repairs/ 50% of the depreciated cost of the IT asset.
4) If any IT asset is lost, a Non Cognizable (NC) complaint needs to be filed by the employee/consultant using the asset and SNEHA employees/consultants may be liable for up to 50% of the historical cost of the asset after deducting depreciation.

2.5 Repair & Replacement

1) If IM Team determines from an IT Help Desk request that an IT asset requires repair or replacement of any hardware part, the IM Team will send an email with tentative cost for approval to the relevant supervisor.
2) Programs teams must respond to this email within 5 working days. Response must include budget for repair, and cost code.
3) Upon receiving the new or repaired IT asset, it is the responsibility of the IT Team to check the asset before handover.
4) The time frame of repairs or replacement will depend on the nature of the repair or availability of stock.

3. Personal Computer (PC) Standards

3.1 Objective

This policy will ensure all SNEHA IT assets are maintained, secure and effective for the use of employees.

3.2 Network Access

1) All SNEHA employees/consultants are given access to the SNEHA network and respective office server, which allows access to the Internet and SNEHA folders/files.
2) The SNEHA domain is a central server to which all SNEHA users from the main offices are connected. Changes made from any computers on the network are immediately synched to the entire network.
3) Some SNEHA locations are connected via VPN. Employees/consultants in these locations can forward a request to the IT Department for VPN access, after informing their direct supervisor.
4) All SNEHA employees/consultants are mandated to save all SNEHA files within the relevant folders on the office server.

3.3 Network Security

1) All laptop and Desktop should be added to SNEHA network domain

2) All SNEHA IT assets must be password protected.
3) SNEHA passwords must be at least 10 characters. Password should contain characters from the four primary categories, including: both upper-case and lower-case letters (case sensitivity), one or more numerical digits and characters such as (~!@#$%^&*_-+=`|\(){}[]:;"'<>,.?/) and will be reset every 42 days and automatically system will remind for changes password before 3 days it gets expire.
4) Enforce password history, with 5 previous passwords remembered
5) All SNEHA IT asset screens will automatically lock after 15 minutes.
6) All SNEHA assets will share a common SNEHA desktop wallpaper.
7) All accounts will automatically lock for 30 minutes after 5 invalid logon attempts (for immediate unlocking, please contact the IM Coordinator during office hours).

3.4 Data Backup Procedure

1) **Individual Backup (with server available)**
   a) The IT Department is responsible for creating individual folders on the server for each new SNEHA employee/consultant.
   b) The IT Department will communicate regular backup practices to new SNEHA employees/consultants.
   c) Individual SNEHA employees/consultants are responsible for transferring relevant files to their individual backup folder.
   d) The IT Department will automatically backup data from individual employee folder every day.
2) **Individual Backup (when server is not available)**
   a) SNEHA employees/consultants without access to the server will utilize a backup tool to back up their data.
   b) The IT Department is responsible for training SNEHA employees in the use of the relevant backup tool.
3) **Data Warehouse Backup**
   a) The IT Department is responsible for ensuring an automatic download from CommCare to the Cloud Server Data Warehouse every night. Additionally, MySQL Data Warehouse is backed up daily on Google Drive.
4) **Photo and Video Backup**
   a) Where the server is available, all SNEHA photos and videos must be uploaded to the designated folders and year *immediately*.
5) **Finance Backup**
   a) The Finance Department is responsible for backing up all Tally Data onto the Accounting server each day when leaving the office.
   b) The IT Department is responsible for ensuring automatic backup of this data to the physical server, and the Cloud Server.

3.5 Antivirus Software

1) All SNEHA IT assets will be provided with official licensed antivirus software.
2) All SNEHA employees/consultants should allow the antivirus to scan any external pen drives/files before opening.
3) All SNEHA employees/consultants are responsible for alerting the IT Department if their Antivirus expires, or if any virus is detected in the system.

4. Internet Usage Policy

4.1 Objective

The following policy outlines appropriate use of the SNEHA Internet network to ensure efficient and safe access for all SNEHA employees/consultants.

4.2 General Guidelines

1) SNEHA's Internet network is to be used solely for work purposes.
2) Firewalls that limit access to certain sites have been installed on SNEHA IT assets to regulate the use of the Internet, and ensure all users receive an acceptable standard of service.
3) SNEHA employees/consultants will not be provided Wi-Fi access on their personal devices.

4.3 Internet Login Guidelines

1) Guests to SNEHA offices will be provided with a Guest Username and Login to access the office Internet.
2) The IM Officer is responsible for sharing the updated guest user credentials with the administration team every month.

4.4 Online Content Usage Guidelines

1) The IT Department has blocked access to Internet sites containing pornography, nudity, shopping, games, gambling, swimwear and lingerie.
2) The IT Department has blocked access to YouTube, Google videos and all social media (except for certain designations /roles which require access to these sites).
3) SNEHA employees are expected to limit their time on news sites, unless required for work.
4) Large file transfers or downloads should be completed during off-peak times.

4.5 Inappropriate Use

Inappropriate use of the SNEHA Internet network may result in disciplinary action. The following activities are prohibited:

1) Downloading images/videos/files that are not work related
2) Playing games/videos
3) Engaging in criminal activity
4) Social media sites without supervisor's approval
5) Using SNEHA IT assets for personal financial gain

5. Email and Chat Policy

5.1 Objective

This policy provides guidelines for proper use and security of SNEHA official email accounts.

5.2 General Guidelines

1) SNEHA provides all employees with an official email address, which is to be used for work purposes only.
2) The IT Department is responsible for creating official email addresses for new employees after receiving email request from Human Resources department, and removing access when employees leave the organization after one month (unless a supervisor requests ongoing access).

3) All SNEHA official email IDs will follow the format – name.surname@snehamumbai.org.
4) All official correspondence (intra-organization and external) should be sent through the official email IDs provided to each user.
5) Restricted use of use of Microsoft outlook
6) Mass emails to SNEHA employees and consultants will be restricted to certain designations.
7) Email passwords must always be kept confidential.
8) SNEHA employees/consultants should avoid opening attachments from unknown sources.

5.3 Ownership

1) SNEHA retains ownership of all email addresses and email content.
2) Email accounts of employees who exit SNEHA will be active for 1 month post exit. To keep email address active post 1 month, a request should be sent the IM Team.
3) The email content of an exiting employee may be made available to that employee upon approval from relevant supervisor. This must be arranged prior to exiting SNEHA.
4) When an employee/consultant leaves SNEHA, all Google Drive Data ownership should be transferred to the supervisor or relevant person.
5) SNEHA reserves the right to monitor official email correspondence.
6) SNEHA reserves the right to block emails or email access when deemed necessary.

5.4 Email Security

1) SNEHA employees should not exchange confidential information via email correspondence without approval.
2) SNEHA employees should be mindful of whether sensitive content should be delivered via phone or email.
3) SNEHA official email accounts must be signed out of before leaving the office.

5.5 Inappropriate Use

1) SNEHA employees should not use official email addresses for personal use.
2) SNEHA employees should not use official email addresses for financial gain or religious purposes.
3) Spam or junk emails should not be forwarded from official SNEHA email addresses.

6. Site Visit Policy

6.1 Objective

This policy provides information about conducting timely and efficient IT service visits across SNEHA offices.

6.2 General Guidelines

1) The IM Officers will conduct scheduled weekly visits to each SNEHA office (in case of a change in schedule, the program teams will need to be informed a day in advance, and the visit will need to rescheduled within a week).

7. Intranet Policy

7.1 Objective

This policy outlines use and update guidelines of SNEHA's intranet, an easily accessible source of up-to-date SNEHA information for all employees/consultants.

7.2 General Guidelines

1) The SNEHA intranet is accessible to all current SNEHA employees/consultants.
2) The IT Department is responsible for uploading any content sent to them to the SNEHA Intranet. This may include:
   a) Photos
   b) Newsletters
   c) Meeting events
   d) Minutes from research group meetings
   e) Policy updates
   f) Staff contact list updates

8. SIM Policy

8.1 Objective

SNEHA provides certain staff members with SIM cards to support them in their official work. This policy outlines SIM activation, transfer and deactivation.

8.2 General Guidelines

1) Program heads should send any SIM requests with specifications and plans to the IT Department for any new employee (1 week in advance).
2) The IT Department will require 8-10 working days to process any new SIM requests.
3) The IT Department is responsible for:
   a) Procuring SIM cards for employee use.
   b) Activating new employee SIM cards.
   c) Disconnecting SIM cards when employees leave the organization (within 15 days).
   d) Transferring SIM cards at the request of SNEHA employees.

9. Internet Billing Policy

9.1 Objective

SNEHA provides some employees/ consultants with SIM cards for Internet access or Internet USB Dongles, depending on program requirement. This policy will outline the responsibilities of the IM Department.

9.2 General Guidelines

1) IM Department is responsible for:
   a) All center and office Internet bills.
   b) Receiving all Internet bills from the service provider on a monthly or quarterly basis.
   c) Preparing vouchers, taking approval from program teams and IM Department and submitting to finance team prior to the due date.

10. AMC Policy

10.1 Objective

This policy outlines the responsibilities of the IT Department regarding Annual Maintenance Contracts (AMC) and renewals.

10.2 General Guidelines

1) The IM Department is responsible for the following:
   a) Selecting the AMC vendor for any IT asset contracts and renewals.
   b) Preparing a quarterly preventive maintenance checklist.
   c) Monitoring the work of the AMCs.
   d) Informing users 5 working days in advance of regular maintenance. *It is mandatory for all IT asset users to provide their assets for regular maintenance. The user must be present for the maintenance and sign the work sheet on completion.*
   e) Ensuring all applicable licenses are renewed/up to date; Tableau desktop, Microsoft, Antivirus, Cloud Services and, CommCare and Internet.

This policy is applicable with effect from 15th October 2020.

Vanessa D'souza
Chief Executive Officer
